

Healthwatch Croydon Programme Prioritisation

Subject area: <Insert title>

Brief explanation: < Brief description>

1. Evidence available

Reference sources of information that make the case, this could be our own data or other sources.

2. Ability to impact within timescales

Can we make a difference by the time we complete this?

3. Issue being dealt with by someone else

This a check to see if anyone is doing this in Croydon and if so can we work with them. We can add to ICS or national level work. If we don't know then state don't know.

4 Likely impact on community

Explain the likely benefits of this project on the community.

5. Healthwatch can make a difference

<How does Healthwatch Croydon make a difference? Is it because we are neutral, anonymous, well placed to communicate the issues?>

6. Related to priorities of Joint Health and Wellbeing Strategy

Check against this [Croydon's Draft Joint Local Health and Wellbeing Strategy \(2024-2029\) consultation | Get Involved Croydon](#) – Official version not yet published but key priorities are there.

7. Equalities Impact Assessment

Explain the impact this will have in recognising equalities and protected characteristics.

8. Risk Analysis

What are the risks of taking this project on? What are the risks of not taking this project on?
